SUMMARY

Enthusiastic and detail-oriented graduate seeking an entry-level Web Developer position to leverage a foundational understanding of web technologies and a passion for building user-friendly digital solutions. Committed to learning and applying modern web development practices in a collaborative team environment. Eager to contribute to innovative projects and develop technical skills. Strong problem-solving and communication abilities. Ready to adapt to new challenges and tools as required. Looking to grow professionally while adding value to the organization.

PROFESSIONAL EXPERIENCE

Kodnest Technologies   **Bengaluru, Karnataka, India**
Software Development Intern   **15 Jun 2025 - Present**

- Interned at KodNest, where I developed practical skills in Java programming, MySQL database management, Frontend Technology, and Manual Testing. Participated in live projects, enhanced teamwork abilities, and learned industry best practices under professional mentorship.

PROJECT EXPERIENCE

- **IoT based Crop Irrigation and diesease identification system**
  - Developed and deployed a crop irrigation system leveraging IoT technology, complemented with disease identification and animal intrusion features using computer vision and machine learning. Improved farm security and yield by enabling automated detection and response, showcasing proficiency in IoT device programming, camera surveillance, and agricultural data analysis.
